SUMMARY

I hold a Ph.D. degree in Applied Mathematics from the Department of Applied Mathematics at *Chung Yuan Christian University (CYCU)*, Taiwan. My research works mainly focused on clustering and pattern recognition, addressing complex multi-view problems in (non) federated environment with (out) feature reduction through (non) collaborative methods. Previously, I served as a Lecturer Specialist - S3 at *Bina Nusantara (BINUS) University*, Indonesia (2020-2022), and as a Postdoctoral Researcher at *Chung Yuan Christian University (CYCU)*, Taiwan (2023-2024). Currently, I am a postdoc researcher at *ISTI-CNR*, Italy.

PROFESSIONAL EXPERIENCE

Post-doctorate Researcher
ISTI-CNR, Italy ***Oct. 2024 – Present***

- *The theme of my postdoc is "study and application of statistical and intelligence techniques for the analysis of heterogeneous data, in critical areas.*

Independent Researcher
Self-employed, Indonesia ***Mar. 2024 – Sept. 2024***

- *I spearhead the development of pioneering algorithms engineered to extract actionable insights from intricate datasets devoid of labeled information.*
- *To propel the frontier of unsupervised learning methodologies, with a specific emphasis on enhancing scalability, interpretability, and real-world applicability for pattern recognition tasks.*
- *Output: Rectified Gaussian kernel multi-view k-means clustering.*

Post-doctorate Fellow
Chung Yuan Christian University (CYCU), Taiwan ***Mar. 2023 – Mar. 2024***

- *Primarily operates within an office environment, with the flexibility to work remotely and everywhere.*
- *Functions autonomously, collaborating with the Principal Investigator (PI) in weekly meetings to discuss new research ideas and achievements.*
- *Spearheaded the development of a novel objective function for soft and hard clustering, tailored to address single-source, multi-resource, client, or user data challenges.*
- *Conceptualized and implemented pioneering algorithms, including Single-View Clustering (SVC) and Multi-View Clustering (MVC), across non-federated and federated environments (N-FE & FE).*
- *Delivered MATLAB codes to facilitate the resolution of complex data challenges involving single-source, multiple-resources and clients/users.*
- *Executed experiments and simulations using self-generated artificial data, SV data and various publicly available MV datasets, meticulously interpreting results to drive insights.*
- *Authored academic papers showcasing the application of soft/hard clustering algorithms, ensuring efficiency, reproducibility, and standardization in single-source & multi-resources data utilization across diverse client/user landscapes.*

- *Contributed expertise as a peer reviewer, ensuring the rigor and quality of research within the academic community.*

Lecturer Specialist - S3
Information Systems Management Department, ***Nov. 2020 – Mar. 2022***
BGP, BINUS University, Indonesia

- *Primarily operates within an office environment, with the flexibility to work remotely and everywhere.*
- *In my capacity as a lecturer, I fulfill a multifaceted role encompassing teaching, research, community engagement, and academic assessment.*
- *Delivering lectures, conducting research endeavors, and actively engaging with Indonesian society.*
- *I am responsible for curating and refining course content, crafting assignments and examinations, and meticulously grading student assessments.*
- *I am privileged to contribute to the development and enhancement of curriculum materials, including homework assignments, exams, and programming tasks, thereby enriching the educational experience for students.*

Staff (Badge: Supervisor grade 6)
BINUS University, Indonesia ***Nov. 2020 – Mar. 2022***

- *Primarily operates within an office environment, with the flexibility to work remotely and everywhere.*
- *My primary objective is to propel the university forward by actively participating in and contributing to various initiatives within the graduate program of master of management of system information at BINUS University.*
- *Advanced the university program's goals and objectives.*

EDUCATION

Doctor of Philosophy, Applied Mathematics
Chung Yuan Christian University (CYCU), Taiwan *2020*
Thesis title: Multi-view fuzzy clustering algorithms for multi-view data
Thesis' PPT: Click here
CGPA: 3.842 out of 4.000

Master of Science, Mathematics in Operation Research
University of Sumatera Utara (USU), Indonesia *2015*
CGPA: 3.78 out of 4.000

Bachelor of Science, Mathematics in Statistics
University of Sumatera Utara (USU), Indonesia *2013*
CGPA: 3.30 out of 4.000

RESEARCH SUMMARY

Research Interests

1. ***Clustering:*** *I specialize in developing k-means and fuzzy c-means (FCM) algorithms for handling single and multi-view data. Occasionally, I devise new clustering algorithms based on novel mathematical formulations. Additionally, I have made my proposed algorithm codes publicly available on my GitHub page. Currently, I am extending my research interests to include graph clustering, manifold regularization, and kernel-based approaches to effectively partition data points into distinct clusters.*
2. ***Pattern Recognition:*** *My research in pattern recognition focuses on clustering-based algorithms such as k-means and FCM for dimensionality reduction. I employ principal analysis to identify irrelevant*

features and emphasize informative feature selection in both single and multi-view data settings. By employing a collaborative approach to feature selection with single/multi-view feature representations and unsupervised learning, I achieve significant improvements in accuracy and efficiently determine the optimal number of clusters (c).

3. ***Federated Learning:*** *My current research centers on federated learning (FL), where I adapt conventional MVC algorithms into parallel algorithms for optimizing the recognition of data patterns from multiple clients' multi-view data. In contrast to my previous work in non-federated unsupervised machine learning techniques, I introduce innovative perspectives by proposing new algorithmic approaches to address privacy and effective communication concerns inherent in handling multiple clients' multi-view data.*

Research Activity

Total refereed papers:	*> 7*
Preprint papers:	*1*
Total books / book chapters:	*0 / 2*
Journals reviewed for:	*2*
Conference / workshop chairs:	*1 / 0*
In manuscript:	*>5*

PUBLICATIONS

According to ***Google Scholar Citations****, my* ***h-index*** *is* ***6****, with over* ***2,000 citations****. Among my most highly cited publications (each with over 100 citations) are: "Unsupervised k-means clustering algorithm" (cited over 1,400 times) and "A feature-reduction multi-view k-means clustering algorithm" (cited 120 times). Additionally, my second most cited publications (each with over 20 citations) include: "Collaborative feature-weighted multi-view fuzzy c-means clustering" (cited 45 times) and "Entropy k-means clustering with feature reduction under an unknown number of clusters" (cited 34 times). Notably, my third most cited publications cover diverse topics such as poverty data modeling in North Sumatera Province using the geographically weighted regression (GWR) method (cited 7 times), an unsupervised multi-view fuzzy c-means clustering algorithm (cited 6 times), machine learning approaches for marketing campaigns in Portuguese banks (cited 4 times), modified relational mountain clustering method (cited 3 times), and spatial variation in infant mortality with geographically weighted Poisson regression (GWPR) approach (cited 3 times).*

HONORS & AWARDS

Honorary Member
The Phi Tau Phi Scholastic Honor Society of The Republic of China, CYCU, Taiwan *2020*

Recipient
Japan Science and Technology Agency (JST), Niigata University, Japan *2018*

Recipient
Japan Student Service Organization (JASSO), Niigata University, Japan *2017*

Recipient
CYCU International Student Scholarship, CYCU, Taiwan *2016*

PROFESSIONAL ACTIVITIES

Journals Reviews

- *Information Fusion, Elsevier (2022 – 2023).*
- *IEEE Access (2021 – Present)*
- *Applied Soft Computing, Elsevier (2022).*
- *IEEE TKDE (2022)*

Conference Reviews

- *IJCNN2023.*
- *WCCI2022.*

TEACHING EXPERIENCE

In my modules, I have instructed over 80 undergraduate students and more than 100 graduate students across regular and online programs. In total, I have taught over 180 unique students. Additionally, I have moderated several events, including guest lecturer sessions attended by undergraduate, graduate, and doctoral students, as well as lecturers from various universities both domestically and internationally. Overall, I have moderated four events with unique attendees from Indonesia and abroad spanning the years 2020 to 2021

Masters in Information Systems Management

- *Regular and online program of Business Intelligence and Analytics (2020 - 2022)*

Bachelors in Computer Science

- *Calculus I (2021)*
- *Discrete Mathematics (2021 - 2022)*

PROFESSIONAL MEMBERSHIPS

Member, The Institute of Electrical and Electronics Engineers (IEEE) *[2020 – 2021]*
Member, IEEE CIS *[2020 – 2021]*
Member, IEEE SPS *[2020 – 2021]*
Scientific Committee Member, World Academy of Science, Engineering and Technology (WASET), category of Mathematical and Computational Sciences *[2020 – 2021]*

CERTIFICATION

The Data Scientist's Toolbox
Johns Hopkins University — Coursera Nov 30, 2022
Instructor: Jeff Leek, PhD, Roger Peng, PhD, and Brian Caffo, PhD

Python Project for Data Science
IBM — Coursera Nov 25, 2022
Instructor: Azim Hirjani & Joseph Santarcangelo
Direct Access Certificate

Python for Data Science, AI & Development
IBM — Coursera Nov 24, 2022
Direct Access Certificate

Tools for Data Science
IBM — Coursera Nov 22, 2022
Instructor: Aije Egwaikhide, Svetlana Levitan, and Romeo Kienzler

Deep Learning.AI TensorFlow Developer
DeepLearning.AI — Coursera Nov 15, 2022
Instructor: Laurence Moroney
Direct Access Certificate

Neural Networks and Deep Learning
DeepLearning.AI — Coursera Nov 5, 2022
Instructor: Andrew Ng, Kian Katanforoosh, and Younes Bensouda Mourri
Direct Access Certificate

Machine Learning Specialization
DeepLearning.AI — Stanford University — Coursera Oct 26, 2022
Instructor: Andrew Ng
Direct Access Certificate

Advanced Learning Algorithms
DeepLearning.AI — Stanford University — Coursera Oct 26, 2022
Instructor: Andrew Ng

Understanding and Visualizing Data with Python
University of Michigan — Coursera Oct 18, 2022

Instructor: Brenda Gunderson, Ph.D., Kerby Shedden, Ph.D., and Brady T. West, Ph.D.
Direct Access Certificate

Programming for Everybody (Getting started with Python)
University of Michigan — Coursera Oct 9, 2022
Instructor: Charles Russell Severance
Direct Access Certificate

Learning to Teach Online
University of New South Wales (UNSW) — Coursera 2020
Instructor: Assoc. Prof. Simon McIntyre & Dr Negin Mirriah
